

AA 559 Plasma Science Seminar Syllabus

Room: EEB 045; Mondays, 2:30-3:20
Course Instructor: Dr. Raymond Golingo

Grading Policy: The course is offered as credit/no-credit only. In order to receive credit for attending the seminar, you must turn in a half page summary of five of the nine seminars. Presentation of a seminar will count as two summaries. These are due by 6/6/08. Turning them in early is highly encouraged.

Seminar Schedule - Spring 2008

3/31/08	3:30-4:20 Dr. Glen Wurden, <i>Diagnosing a Magneto-Inertial Fusion Plasma</i>
4/7/08	2:30-3:20 Dr. Houyang Gou
4/14/08	2:30-3:30 Dr. Roger Smith, <i>Non-perturbative Measurement of the Local Magnetic Field Using Pulsed Polarimetry for Fusion Reactor Conditions</i>
4/21/08	2:30-3:30 Kiyong Lee, <i>Design of the Multi-point Thomson scattering diagnostic for TCSU (Translation, Confinement & Sustainment Upgrade) Experiment</i>
4/28/08	TBD
5/5/08	TBD
5/12/08	TBD
5/17/08	TBD
5/26/08	No Class
6/2/08	TBD
